

E236 Urethane Mold Release

Stoner E236 is specially formulated as a release agent and anti-stick lubricant for molded urethanes. A light coating produces best results. E236 Mold Release provides fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, pour cast, die cast, and extrusion molding, insulation spray guns, and masks.

Stoner E236 Urethane Mold Release Features & Benefits

- Saves time - lets urethane parts release quickly and easily from molds.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Contains no Class I or Class II Ozone Depleting Substances.
- Contains no chlorofluorocarbon (CFC) or hydrochlorofluorocarbon (HCFC) propellants.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane or methylene chloride.
- Colorless and non-staining.

Specifications

Feature	Details
Can Net Weight	12 oz
Qty Per Case	12 Cans
Flammable	Yes
Food Grade	Yes
Product Type	Aerosol
Appearance	Clear Colourless
Solvent	Yes

Compliance

III* Hazardous Material
